Adama, Ethiopia

SKILLS

AI & Agentic Engineering:

LangChain, MCP, n8n Automation, RAG, ChromaDB, LangGraph, RAGAS, LangSmith.

Machine Learning & NLP:

Python, Scikit-Learn, Numpy, Pandas, spaCy, Matplotlib.

Web & Developer Tools:

Docker, Streamlit, Git/Github, JavaScript, HTML5/CSS3, VS Code

Domain Expertise:

Clinical Decision Support Systems, Healthcare Informatics, Pharmaceutical Regulatory Compliance (EFDA guidelines).

LEADERSHIP

President | EPSA Haramaya

Directed 2 AMR campaigns educating 950+ patients/caregivers and coordinated clinical training sessions for 50+ pharmacy students

Head, Clubs & Societies | Hr. University

Restructured student-led clubs and established the university's first Mental Health & Counseling Club.

CERTIFICATIONS

Agentic AI Builder & RAG Systems Expert (ReadyTensor Inc.)

AI Agents Fundamentals (Hugging Face)

AI & Programming (Udacity)

EDUCATION

Bachelor of Pharmacy (2022 - Present)

Haramaya University, Ethiopia

AI Engineering (2024 - Present)

Actively self-teaching and building agentic systems for clinical applications

PROJECTS

CardioSentinel MAS

Multi-Agent Cardiovascular Care Planner: Engineered a multi-agent AI system utilizing LangGraph and Pydantic to orchestrate specialized agents for cardiovascular risk assessment, care planning, and medication adherence.

AskeFDA

Regulatory Compliance Assistant: Developed a production-ready RAG application enabling interactive querying of complex regulatory guidelines for medicine registration, import, and export.

PharmaCast

Developed a predictive machine learning pipeline using Scikit-learn and Pandas to forecast medication demand based on 6 years of daily historical pharmacy sales data.

PharmaTriage

Automated Support Ticket Router: Built an end-to-end NLP classifier to handle automatic classification, prioritization, and department routing of pharmacy operational tickets.

CardioSentinel RAG

Guideline-Aligned Clinical Assistant: Designed a hybrid vector and graph database backend using ChromaDB and Neo4j to ground clinical LLM responses in evidence-based medical guidelines.
